Six months after the events of the first book, Jason Randwulf is getting accustomed to his role as the self-appointed protector of Towers City and the pressures of being a hero are growing. More Neo-Humans have been raising Hell on the streets and for some reason the whole city has begun to fall into a state of chaos.

Jason is confident he can overcome, but all that comes to a halt when an army of alien ships from the planet Xenos invade and the only thing that will send them away is Spectrum's head on a platter.

In an noble act, Spectrum allows the invading force to take him and once they return to Xenos, Jason must face his trial for his 'crimes' against Xenos. He is then set upon a test to prove his worthiness which puts him in the sights of an evil greater than anyone can imagine and soon the fate of all of Xenos, and Earth itself, hangs in the balance.

Will Jason survive the test and make it back to Earth? And if he does make it back, what kind of world will he return to? The ongoing saga of Spectrum continues in this exciting new chronicle.
