Citizens of No Place: An Architectural Graphic Novel Jimenez Lai

Citizens of No Place is a collection of short stories on architecture and urbanism, graphically represented using manga-style storyboards. Fiction is used as a strategy to unpack thoughts about architecture. Modeled as a proto-manifesto, it is a candid chronicle of a highly critical thought process in the tradition of paper architecture (especially that of architect John Hejduk and Bernard Tschumi's *Manhattan Transcript*). The short stories explore many architectural problems through the unique language of the graphic novel, helping usher the next generation of architectural theory and criticism.
