## **Stayin' Safe: The Art and Science of Riding Really Well** Lawrence Grodsky

Larry Grodsky devoted his life to motorcycle safety. Through the riding courses he taught and his "Stayin' Safe" columns in Rider magazine (from 1988 until his untimely death in 2006), he helped thousands of motorcyclists improve their skills and their ability to ride really well. This collection of Grodsky's columns reveals his ability to illuminate complex and sometimes highly technical subjects with an entertaining and personal style, spiced with his trademark wry wit and keen observations of human behavior. A master teacher, Grodsky was constantly learning from his students, always striving to find the best way to lead riders towards the mastery of their two-wheeled vehicles. Many of his columns focus on helping riders develop specific skills (complete with practice exercises), while others deal with the riding environment and riders' mental processes. Although it is packed with information useful to both novice and experienced motorcyclists, this book is not structured as a how-to guide to motorcycle proficiency. Rather, it is a collection of thoughtful essays to be read and savored individually. Readers will be rewarded by the beautifully written stories of a great motorcycle riding instructor who has left his mark on a generation of grateful riders.
