Post-September 11 America and multi-cultural England are the flashpoints in this terrorism epic of communities riven to the core. Although the story is fiction, the background is real. Two special force soldiers Scott MacGregor and John Sudar are parachuted deep in the Afghanistan wilds as scouts prior to the 2001 invasion. There, by chance, they stumbled upon Osama bin Laden leaving a cave with his fighters. Sudar follows the Al Qaida group, while Scott flies to London to brief his spymasters. The half-Arab Sudar is captured, but his cover story that he is a Taliban sympathiser is accepted and he joins al-Qaida forces defending Bin Laden's stronghold at Tora Bora. During the battle Sudar, who was brought up as a Muslim, is so impressed with Al Qaida's commitment to its cause that he switches sides. When he does not return, the SAS believe he has been killed. Meanwhile, Scott is seconded from the SAS to join The Flame, a shadowy group with one key aim: to fight terrorists on their own terms unimpeded by borders or legalities. The Flame is run by Scott's brother Charlie, who also recruits MI6 operatives Greg Wright and Julia Deane. They discover that Sudar is still alive and now one of Al Qaida's key assassins. Not only that, he also is about to lead a mission into America to detonate a radioactive 'dirty' bomb. The chase is on; from the sink estates of London to the Reeperbahn in Hamburg to America most iconic landmark, no quarter is asked or given. If The Flame fail, it will trigger World War 3. Keepers of the Flame takes us behind the scenes of what fighting terror will be like in the future. It is a terrifyingly authentic story of the 21st Century.
