Disruptive Governance thinking for the masses. This book is about SharePoint Governance. Not the SharePoint Governance that you see today, focused on technology and information, but a more holistic, disruptive and business led form of Governance. The word Governance does not mean "huge document that no-one reads" or "a set of rules to stop your users doing stuff". As stated in Wikipedia, the word Governance is said to have been derived from the Greek verb *Kubernáo*, used for the first time in a metaphorical sense by Plato. In Latin, the term Governance means "To Steer" and this phrase is the basis of this Manifesto. It is my hope that this book will cut through all the existing SharePoint Governance crap that is out there and steer you on a path to SharePoint awesomeness.
