Pervasive Animation (AFI Film Readers)

This new addition to the AFI Film Readers series brings together original scholarship on animation in contemporary moving image culture, from classic experimental and independent shorts to digital animation and installation. The collection - that is also a philosophy of animation - foregrounds new critical perspectives on animation, connects them to historical and contemporary philosophical and theoretical contexts and production practice, and expands the existing canon. Throughout, contributors offer an interdisciplinary roadmap of new directions in film and animation studies, discussing animation in relationship to aesthetics, ideology, philosophy, historiography, visualization, genealogies, spectatorship, representation, technologies, and material culture.
