*Learn How to Rank your Blog Posts at the Top of Google's Search Results*

There are over 150 million blogs out there in the world today, and in order to compete at any level, you must understand the inner workings of search engine optimization. Ranking your blog posts on Google is difficult, and it has become increasingly more so in the wake of Google's many new algorithm changes.

With the introduction of updates like the Google Panda, Google Penguin, User Experience Algorithm, and Exact Match Domains, the entire ranking landscape has changed. What used to work just a couple of years ago for ranking in SEO, no longer works today; the rules are different.

Don't get caught left behind in the blogosphere. Whether you're new to blogging or you've had some experience with it, you have to understand just what it takes to craft your blog posts for the most optimized positioning on Google. Learn important skills such as:

- How to effectively research keywords for your blog
- How to effectively craft your content from an SEO keyword-driven perspective
- Understand the three different components of building trust with Google
- Off-page optimization strategies to help give your new blog presence on the Web
- The 5 principles of social media marketing for SEO
- Content syndication strategies
- ... and much more
