## **Alexander the Great** Jacob Abbott

Alexander the Great is a towering figure in ancient history because of his legendary conquests throughout Europe, Asia and Africa. He was born in 356 BC to the noble family of Macedon. As such, he was afforded with great luxuries growing up including having Aristotle as his private tutor. After his father was assassinated, he took over the throne and inherited a formidable army which he would put to tremendous use.

Alexander was just in his early twenties when he embarked on an ambitious expansion of his territories. Despite his youth, he proved to be a capable military strategist and captured nearly all the kingdoms in his path, often leading the battles himself. Even the mighty Persians who had terrorized the Greek states for centuries had been defeated by his army. He also conquered Egypt, took the title of Pharaoh, and founded the city of Alexandria.

His campaigns reached as far as India and could have gone farther if not for his men's refusal to march on due to homesickness. Despite this premature turnaround back to Macedon, he was able to consolidate most of the known world under his rule -- a feat never before achieved.

He caught a vicious illness on the way back and died at the age of 32 far away from his home.
