Gathering Prey: (The Prey Series, Book 25) by John Sandford | Summary & Analysis

This is a Summary & Analysis of Gathering Prey. John Sandford's latest instalment, pushes the long-running Prey series forward as it sees Lucas Davenport race across states to stop killers who prey upon some of the most vulnerable segments of the population, spurred on by one of his daughter's friendships. Packed with action and treating a perhaps unfamiliar setting in a markedly familiar way, the novel is sure to please readers of the series, and it is easily accessible to those new to Sandford's writing.

Following up on a charity case begun by his adopted daughter, Letty, Davenport in the novel comes to pursue Porter Pilate and his disciples, a cult-like group that makes its way across the country selling drugs and killing people for the thrill in advance of the Fall, the cataclysmic end to organized society. The chase leads across several states and into the hinterlands of the Upper Midwest, echoing the isolative tropes of the Western as well as the stark violence of its ending before resolving in a manner entirely familiar to those who follow police dramas.
