The Anatomy of Clay Gillian Sze

Taking off from the Promethean myth of human creation, Gillian Sze's second poetry collection explores the "anatomy of clay" and the individual as a sentient mystery. At times reflective, instructional, playful, or strange, the first section, *Quotidianus*, offers observational poems, which recount intimate and ordinary moments often missed, overlooked, or forgotten. Sze tugs at the fabric of habit and amidst the urban mundane finds her subjects in a woman waiting for the bus, a neighbour who talks to his plants, a girl smoking after a storm. The following section, *Extimacy*, takes a lyrical and confessional turn, veering inwards, dealing reflexively with the materiality of inner life: the self as ingredients, the self as experiment, the self as animal and artist. *The Anatomy of Clay* finds exceptions in the most prosaic conditions and the ineffable distinctions between people, selves, objects, and histories.
