Carl Wellman

A Theory of Rights: Persons Under Laws, Institutions, and Morals Carl Wellman

This book makes two important contributions toward a general and systematic theory of rights-a powerful philosophical analysis of the language of rights and an explanation of the nature of rights. In working out these ideas, Wellman has provided a new and cohesive way of thinking and talking about rights of every sort.

Wellman succeeds in bringing all kinds of rights-moral, legal, institutional, etc.-under one unified theory in a way that illuminates their similarities and differences. This enables him to deal in a consistent way with a very broad range of philosophical questions, questions that are too often dealt with in isolation from each other.
