TestSMART® Common Core Mathematics Work Text, Grade 4, Book I - Operations & Algebraic Thinking and Geometry

Lori Mammen

TestSMART® Common Core Mathematics Work Text, Grade 4, Book I - Operations & Algebraic Thinking and Geometry Lori Mammen

This book has more than 380 practice items and activities that help students learn Operations & Algebraic Thinking and Geometry. The custom-developed book provides an easy-to-use tool for teachers and parents to help students master the rigorous mathematics standards. The Teacher Guide Section includes a complete answer key and help for the teacher or parent.

The content for each grade level is divided into three volumes, with each volume focusing on a different set of standards. Each volume provides numerous examples that include clear, concise explanations for new topics or skills and varied approaches for problem solving. A complete answer key and help for the teacher or parent can be found in the Teacher Guide Section.

Emphasizing critical areas of understanding, the questions and prompts encourage discussion of both the learning tasks and problem-solving methods. Open-ended and extended-response tasks challenge students to do more than find the right answers. For easy reference, the complexity level and related mathematics standards for each activity are clearly identified.

Each work text presents topics in an interesting, conversational tone for students. At the same time, however, each work text also emphasizes the importance of knowing and using precise mathematical vocabulary. As students work through each work text, they will have many and varied opportunities to learn and practice the eight key Standards for Mathematical Practices, as well. Students who know and practice these important processes and proficiencies develop the kind of mathematical competencies they will need and use throughout their lives.

This 160-page TestSMART® Mathematics Work Text includes repeated opportunities for students to apply the mathematical practices (e.g., reasoning abstractly and quantitatively) identified in the Standards for Mathematics. The research-based content in this book builds higher-level thinking and problem-solving skills.

The Teacher Guide Section includes a comprehensive answer key and many helpful extras for the teacher or parent who will be working with students. These extras include a master skills list, an explanation of Common Core State Standards for Mathematics, a list of mathematics manipulatives, instructional and learning strategies, mathematics vocabulary, a reference list, and much more.

From reader reviews:

Mark Hernandez:

Have you spare time for just a day? What do you do when you have more or little spare time? Yep, you can choose the suitable activity intended for spend your time. Any person spent their particular spare time to take a move, shopping, or went to the particular Mall. How about open or maybe read a book called TestSMART® Common Core Mathematics Work Text, Grade 4, Book I - Operations & Algebraic Thinking and Geometry? Maybe it is to be best activity for you. You recognize beside you can spend your time with the favorite's book, you can more intelligent than before. Do you agree with it has the opinion or you have various other opinion?

Ross Turner:

Book is usually written, printed, or outlined for everything. You can learn everything you want by a book. Book has a different type. As you may know that book is important matter to bring us around the world. Beside that you can your reading ability was fluently. A reserve TestSMART® Common Core Mathematics Work Text, Grade 4, Book I - Operations & Algebraic Thinking and Geometry will make you to possibly be smarter. You can feel more confidence if you can know about anything. But some of you think that open or reading a book make you bored. It's not make you fun. Why they can be thought like that? Have you seeking best book or suited book with you?

Candace Mathieu:

In this 21st century, people become competitive in every way. By being competitive right now, people have do something to make all of them survives, being in the middle of the crowded place and notice through surrounding. One thing that oftentimes many people have underestimated the idea for a while is reading. Yeah, by reading a book your ability to survive raise then having chance to remain than other is high. For you who want to start reading a book, we give you this specific TestSMART® Common Core Mathematics Work Text, Grade 4, Book I - Operations & Algebraic Thinking and Geometry book as basic and daily reading e-book. Why, because this book is usually more than just a book.

Carl Johnson:

That publication can make you to feel relax. This book TestSMART® Common Core Mathematics Work Text, Grade 4, Book I - Operations & Algebraic Thinking and Geometry was bright colored and of course has pictures on there. As we know that book TestSMART® Common Core Mathematics Work Text, Grade 4, Book I - Operations & Algebraic Thinking and Geometry has many kinds or variety. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and believe you are the character on there. Therefore not at all of book usually are make you bored, any it offers up you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading that.
