America's Reset Button: 2nd edition Jim Boehm

America is collapsing and it's by design. By collapse of America I don't mean the country or the people will collapse, but the government and the failed system of socialism. If you doubt it consider this. Each day our government spends a stack of dollars that would be 100 miles higher than what it takes in and walking a line of dollars the length of the unfunded federal liabilities like Social Security and Medicare would take more than 4,520 centuries. Does that sound sustainable? I will start this book with some basic political facts of life our ancestors took for granted but few Americans today are aware of because we made the huge mistake of allowing government to educate us. Government doesn't educate it indoctrinates. There is a big difference. We will then take a bumpy ride through history only this history will make you think you are living in some parallel universe. When we get to the last chapter you will understand the pieces in the puzzle and why they are there. The puzzle will become a very ugly picture. The last chapter will take that puzzle and actually rearrange the pieces in a way that will become a beautiful picture of what could be. Now, sit back, take a deep breath, lace up your shoes and prepare for the ride of your life. Expect your emotions to run from anxiety to depression to hope to optimism. Warning: This book may cause sleep deprivation. Enjoy the book.
