Soon to be a major motion picture starring Amy Adams.

Combining the precision and scientific curiosity of Kim Stanley Robinson with Lorrie Moore's cool, clear love of language and narrative intricacy, this award-winning collection offers readers the dual delights of the very, very strange and the heartbreakingly familiar.

*Stories of Your Life and Others* presents characters who must confront sudden change—the inevitable rise of automatons or the appearance of aliens—while striving to maintain some sense of normalcy. In the amazing and much-lauded title story, a grieving mother copes with divorce and the death of her daughter by drawing on her knowledge of alien languages and non-linear memory recollection. A clever pastiche of news reports and interviews chronicles a college's initiative to "turn off" the human ability to recognize beauty in "Liking What You See: A Documentary." With sharp intelligence and humor, Chiang examines what it means to be alive in a world marked by uncertainty and constant change, and also by beauty and wonder.
