Other threats lurk in the devastated habitats of the Fall, dangers both familiar and alien. In this harsh setting, the players participate in a cross-faction conspiracy called Firewall that seeks to protect transhumanity from threats both internal and external. Along the way, they may find themselves hunting for prized technology in a gutted habitat falling from orbit, risking the hellish landscapes of a ruined Earth, or following the trail of a terrorist through militarized stations and isolationist habitats. Players may even find themselves stepping through a Pandora Gate, a wormhole to distant stars and the alien secrets beyond.

Sunward details the inner part of the solar system:

- Can you take the heat? Find out on Mercury, the Vulcanoids, or dive into the suns corona with the Solarians
- A new star is rising on Venus, join in the intrigue as the Morningstar Constellation maneuvers for influence.
- Return to the cradle of transhumanity and explore the blasted, but not quite abandoned, ruins of Earth.
- Keepers of many of our cultural traditions, the Lunar-Lagrange Alliance stands watch over our shattered homeworld.
- A red storm is rising on Mars as the traditional masters of the red planet face an upswell of Barsoomian patriotism.
- The silent masters of the inner system, the Planetary Consortium, reach out to touch all with a velvet glove.
- Plus new Morphs, gear, and sample characters.
