There is no utopia in our future!

Rising Leviathan. The latest science fiction and international thriller in the After Eden Series by Author Austin Dragon.

The year is 2096--just three years until the 22nd century!

A Russian summit in Saint Petersburg with all the superpowers: America, the Islamic Caliphate, the Chinese-Indian Alliance. The Russian President inexplicably...dies. Or was it murder? One moment world peace was in sight, now world war seems unstoppable. Will the Russian Bloc (Russian and Eastern Europe) erupt in civil war? Or will it be a global war--or both?

As one leader falls, a deadly power rises. New enemies. New conspiracies. New dangers.

The march to the explosion of World War III continues--the first global war of the Tek Age, a hell we have never seen before.

Rising Leviathan is book three of the epic After Eden series--a dramatic mix of politics, religion, technology, and intrigue set eighty years in the future.

???Reviews

"A heart racing thriller: This futuristic thriller will grab you and take you on an emotional, spiritual, and political ride that you won't forget. I loved it!"

Austin Dragon's third After Eden novel shines right alongside the other two, and proves he can create a series worth following. Balancing genres in fiction is a tricky thing, and after three books the mix of science fiction and political thriller still runs on all cylinders.
